5. Other Business

- a. Peter Murphy noted that the new Timber Value Areas became effective on January 1, 2011, and while some taxpayers were unaware of the changes, things went smoothly overall.
- b. George Belden inquired if the small total volume adjustment could be changed from 300M to 400M, since it is not economical to log 300M in light of current THP costs. Peter Murphy explained that the threshold is based on historical information, but that Timber Tax Section staff would look into Mr. Beldon's concerns.
- c. Mike Mallory asked how the new Timber Tax programming is working. George Felix explained the mainframe changes, and stated that the 1Q 2011 return numbers are fine. Mr. Felix stated that a couple of bugs were identified and fixed.
